

New Folder / Lessons learnt from working at a metaverse company.

We are early.
What this means is that the technology is not there.

Definition of metaverse has come up

The word metaverse is mostly for being a financial category for capital

Good experience comes from good content

The tech like headset is not there yet

We need a vr based wallet. That's native

Presence

The measure of success needs to be reinvented

Creators will be the key component
ie look at current meta verses

Metaverse a are context dependent and event based

It was a huge trend

Even google are being troubled

People are relying on games for business decisions

Back end limits. Bandwidth

Innovators dilemma

First one through the door is always bloody

Location dependent
